Instructions

For Growers - If you are growing more than one variety you would fill out a separate form for each variety. If you also process or already have a processor fill out the processor section. If you have a buyer for some of this variety only include the amount of fiber and wood you have left to sell on this form.

For Processors - If you already have customers you are processing for and want additional material to process, include only the additional amount you can process on this form.

For Buyers - If you already have a contract for one or more suppliers include only the amount you need to complete your order on this form.

Once you have completed filling in your part(s) of this form, please return it to bob@kenafpartnerusa.com

The Purpose of this Form

The purpose of this form is to connect growers, processors and buyers for kenaf or industrial hemp for fiber and wood only material. This is not a contract or guarantee of any sort and is to be used to help connect the players in this industry. For now this form will be used to get things started and at some point with your permission your profile information (the information on this form) can be added to the <https://kenafpartnersusa.com> web site. Growers and processor locations will be added to the 2 maps that are updated and posted on the web site at the end of each month. Once our mapping software is in place the maps on the KPUSA web site will be updated as new information comes in.
